Some early feedback:

**Always Right:** « The analogue synth led production style is atmospheric and reminded me of some of my favourite early 00s artists (Miss Kittin for example). The vocal has an assertive quality which is distinctive. Fans of **art pop** would like it. – BlackPlastic (UK)

A well produced **electronica** song. It reminds me a little of Kylie Minogue. – Van Richter Records (USA)

The song sounds super creative. Lot of potential here! Really original. – Hot Monkey Music (Argentina)

Amazing Track. – Sword Radio (UK)

Very emotional and empowering. The delivery and lyrics were a nice touch. A good song with a lot of potential. Good Stuff! – 1Face Music (USA)

Excellent your title bravo! – Radio Saint-Dié (France)

Well produced, we like the structure with this very cool intro. – Pentarosa Music (France)

A very interesting, well produced and cool song.

– Vitrola Play (Brazil)

Vocals are nice and have a quite significant sound, harmonizing very well with the beat and melody. I enjoyed the strong and expressive vibe that's super **remarkable and unique compared to what's currently out**. – AirwaveMusicTV (Germany)

An interesting fusion of **electronica and pop**.

– Alitude (UK)

Really solid production and mixing.

– Progressive, Deep, Melodic (UK)

Bravo for your splendid 'Always Right', a title tinged with **pop, retro wave and Bjork**. I am totally under the spell! Production is excellent! While proposing hot synths, the drums lead the dance with a rhythm more original than dance pop and a perfectly mastered

structure. An absolutely brilliant vocal expression! The intention is hyper strong and personal with lyrics tinged with irony. – P Studio (France)

**Intergalactic Hit:** « a really crazy song, full of strong emotions and crazy sound dynamics in addition to a voice that makes the song unique, congratulations! – Independent Radio (Italy)

Like an old voice but taken to the future, like a time traveling voice. This is one of those songs that seems like a drug, **the second time you can't stop listening to it!** – RockAndSex (Colombia)

**Basic:** « the "retro" facet in the sounds is immediate, and slowly fades away to leave room for a **hell of a sound personality!** It's super efficient, but **without ever falling into the easy way**. The work on the sounds is excellent, the vocals perfectly brought. It is excellent, bravo! – HomeCooking Share (France)

### HOUSE OF ZINA – 14 NEW TITLES AND REMIXES

For this second album we keep our electronica style, with a house vibe.

It starts with 5 new songs and goes one with 9 remixes of our own titles. This album is a step up for us into the night world. We're exploring music femininity, freedom, acceptance and a strong desire to let go of daily pressure. We also don't take it too seriously. We just hope to make you dance and laugh.

### DAME ZINA

We are a daughter/father French duo, Dame Zina writes and sings, Y composes,

plays, writes and produces. If you like electro, rock, poetry, nature, love and dreams, and some fun, our music is for you! We write on what matters to us:

feminism, freedom and emotions. We released our first electro-rock album after 4

singles and music videos in 2020, continued with a wave of pop, rock and electronica singles and EPs releases in 2022, and this 2<sup>nd</sup> album is definitely electronica/art pop/synth pop and house. And, as we love remixes, we give all the stems for our songs free to download ([remix.damezina.com](https://remix.damezina.com)). And more new songs and remixes will come in 2023...
